

ACO Drain

KlassikDrain K100

PORTFOLIO

Botany Town Centre Extension

With the shops reopening after the second Covid 19 lockdown, people are floating around Botany's Town Centre again. In 2019 the Town Centre had gone through two extension projects to provide a larger range of retailers. ACO supplied various products across the site, including ACO's KlassikDrain K100 channel together with **Heelsafe**® Anti-Slip grates that has been installed at the entrance of the shopping mall. The drain manages the surface water and the slip resistant grates ensure pedestrian safety, while also leaving an aesthetic finish.

Benefits

- ACO's KlassikDrain K100 with **Heelsafe**® Anti-Slip Iron Intercept grates, providing a pedestrian friendly surface water management.
- Certified to AS 3996 Class D loading, the grate matches the NZTA load requirements.
- AS 1428.2 (Clause 9c) compliant for wheelchair and walking cane safety.
