

ACO Drain

KlassikDrain K200

PORTFOLIO

The Terrace Car Park

Besides the entrance area, also the 5th and 6th level of the Terrace Car Park in Christchurch were equipped with ACO products. Our KlassikDrain K200 with Type 676D Grates was chosen to ensure the surface water is controlled and captured, preventing slipping hazards. The grates specified are **Heelsafe**® Anti-Slip, and wheelchair and walking cane safe with a Load Class D. Overall pedestrians are kept safe whilst the drain easily copes with multiple cars crossing over the drain to park. A perfect fit for this environment.

Benefits

- ACO's KlassikDrain K200 with **Heelsafe**® Anti-Slip grates, providing a pedestrian friendly surface water management.
- Recesses in the edge rail fit around 'anti-shunt' lugs on the grate to prevent longitudinal movement.
- AS 1428.2 (Clause 9c) compliant for wheelchair and walking cane safety.
- Certified to AS 3996 Load Class D.
